Anchorage, Alaska | 907-297-9560 | mcoxe@me.com

[LinkedIn/in/MichaelCoxe](#) | [Portfolio - mdcoxe.GitHub.io](#) | [GitHub.com/mdcoxe](#)

I am a detailed-oriented, full-stack developer with proven ability to adapt and learn quickly. My military and private sector experience provided me with the skills to communicate effectively in diverse environments and solve problems efficiently.

SKILLS

HTML | CSS | Javascript | Ruby | NodeJS | React | React Native | ExpressJS | Sass
Bootstrap | Ruby-On-Rails | MongoDB | PostgreSQL | Git | GitHub | Postman

EXPERIENCE

General Assembly, Remote | Software Engineer Student 10/2020 - Present

- **Exploding Kittens Game** - Two-player game solidifying use of Javascript, HTML and CSS. Developed plan and wireframe to complete the project on a tight deadline.
- **Honey Badger Fat Tire Bikes** - Basic e-commerce store, using NodeJS, Express, MongoDB, and RESTful routing.
- **Astro-Wx** - Full-Stack MERN app, integrating multiple API's to increase chances of viewing Aurora Borealis and other astronomical events.
- **Tweetr** - Full-stack, React, Ruby, Ruby-on-Rails, PostgreSQL twitter clone. Built in authentication and authorization as well as initial design utilizing Bootstrap 4
- **Scrumptious** - Full-stack, React Native, MERN stack, recipe sharing app. Built in authentication and favoriting functionality to save found recipes to the user account.

Greenstand, Remote | Volunteer Software Test Engineer 11/2020 - Present

- Performs testing of API's using Postman to set-up complex relationships and transfer bulk tokens between wallets providing verification for reforestation efforts
- Create and document issues and failures in GitHub to help quickly fix code breaks
- Currently building scripts for K6 performance testing of wallet API pre-release

WV VOAD, Belle, WV | Data and Monitoring Manager 01/2017 - 04/2018

- Responsible for program monitoring, compliance and reporting to federal and state representatives regarding federal and private funding for flood recovery efforts
- Developed documentation and data collection training for 23 case managers ensuring accurate and efficient data capture and processing

Palogix SCS, Shiremanstown, PA | Depot Manager 11/2012 - 12/2016

- Full accountability for 300k sqft distribution warehouse; P&L, operations, logistics, customer service, manpower, training and safety. Led team of 63 associates

EDUCATION

Software Engineering Immersive, General Assembly 10/2020 - Present

Three-month, 500-hour full-time, full-stack program. Gained hands on experience with the latest front-end and back-end programming languages, tools, and methodologies including: HTML, CSS, Javascript, ReactJS, MongoDB, PostgreSQL, Express, NodeJS, Git, and Github
